Display Resolution

Select the appropriate resolution for your display, and then click 'Next'.

Consult the owner's manual of your monitor to determine the optimal resolution, color bit depth,

refresh rate, and aspect ratio.

You will typically want to choose a resolution with the same aspect ratio as your display to avoid having your content appear stretched out.

Display Resolution Please choose an item from the list that is closest to your display's netive resolution. This selection will set the default	1280 by 768 pixels. 32bit color, 75hz refresh. 16.9.6 aspect ratio 1280 by 768 pixels. 32bit color, 75hz refresh. 16.9.6 aspect ratio 1280 by 960 pixels. System Information

Write down the network IP address of your unit. This is the address you will input into your web browser to access the Exhibio Manager.

System Settings

This section allows complete access to all administrator level settings. Refer to the Software

Manual, found on the included USB Key, for detailed information on all tools.

Preferences

You may check 'Enable Automatic Logon', which will automatically login to the correct Exhibio User upon restarting. Also, you may check 'Enable Detailed Error Messages'. If you are finished and wish to not setup Live Video or Digital/Analog TV, click 'Finished' and skip to Step 13.

Enabing Live Video (Optional)

To activate, ensure the TV Tuner is connected to the Exhibio Unit via USB 2.0, see step 4 for instructions. Once you've verified the TV Tuner is connected, click on 'Enable Live Video' and then select 'OK'.

Activating Live Video. Please wait for Live Video to activate. This may take several seconds.

Once activation completes, click 'OK' on the dialog box to display the Live Video Setup window.

Click 'OK' on the dialog box to add channels.

Digital Channels.

Click the 'Scan' Icon within the Digital Channels section, Click 'OK' to begin the scan, this can take several minutes. Once completed, a list of available channels will appear under the Digital Channels.

Completed Channels.

After scanning completes, a list of channels will be shown in the background, the Live Video Setup window will be running the first channel that was found during the scan.

You may manually add or remove any channels you wish clicking the 'Add...' and 'Delete' buttons. You may also change channels up and down to preview your video source. Once complete, close out of the Live Video Setup window and click on the 'Finished' button on the Exhibio Setup Utility.

For a list of ATSC (Digital TV) transmissions in your area, input your Zip code at http:// www.titantv.com. When you see the TV guide information for your area, click the HD only button. Digital TV reception requires an antenna capable of picking up a strong signal. Go to http://www. antennaweb.org to find out what type of antenna you will require.

OTHER INSTRUCTIONS

System Recovery

To restore your system to its initial factory state perform the following steps.

- Either hit <F11> at the bootup or click the 'Factory Restore' icon on the 'system Settings' tab of the Exhibio Setup Utility.
- Click the 'Restore System to Initial State' button.
- 3. Click 'OK'.
- 4. Click 'OK' when asked 'All data in Windows drive will be deleted upon restoration. Do you want to continue?'.
- 5. The 'system Restoration' dialog will appear showing the progress of the restore operation.
- 6. Click 'OK' on the 'Completed Restoration. System is going to be restarted' dialog.
